Bio Inputs Recipes List

How to make: Growth booster - Tonic water

<https://www.youtube.com/embed/9u1gFCz9M7Y?si=3h9L6azM2hxYRSBH>

How to make: Liquid bio-fertilizer

<https://www.youtube.com/embed/QY5AFmp3nhk?si=01bSwAsVD3JUQQUI>

How to make: Jeevamrut/Jeev Amrit

<https://www.youtube.com/embed/3NrpP3-8Aps?si=6YScUrGzFGu0bndc>

How to make: Beejamrut

https://www.youtube.com/embed/takEo_5fDkg?si=vnexADbKAtbslCNZ

How to make: Sajeev jal

<https://www.youtube.com/embed/sBi9tip0gtY?si=M70RU1ilpaTUY2Os>

How to make: Herbal blends for pest & disease control

<https://www.youtube.com/embed/U0tHlbZ2eCs?si=N-gMIU1A9GM9uzCW>

How to make: Amruthajalam

https://www.youtube.com/embed/Fu-O-z2dw_w?si=dOQLz-ledbTChm4t

How to make: Panchagavya

<https://www.youtube.com/embed/8BCiBIJQNvQ?si=tiGEbBMoyFXbDj1U>

How to make: Dhrava Jeevamrut

<https://www.youtube.com/embed/wS9wjikMYPs?si=8-ojJBqKjwpRTw8p>

How to make: Chilli-garlic-ginger paste for pest control

https://www.youtube.com/embed/9AlQaWoMGMc?si=Fn5jvrX-2aghR_bU

How to make: Buttermilk input

https://www.youtube.com/embed/0Mlru36a-AQ?si=c3d5jpnawNpgn_QQ

How to make: Brahmastra

https://www.youtube.com/embed/rZYVrW_u2eM?si=3hWqXZbtqICBFnzi

How to make: Agniastra/Agnaastram

<https://www.youtube.com/embed/h547UZ-l9tc?si=TEhmsGtaEHovhj1o>

How to make: Dashparni Ark

https://www.youtube.com/embed/4MWzE-PwEH4?si=C0Jl33bM_oFLO83A

The Magic of Five Leaves (Paanch pathi khada)

Sumanbai, a farmer in a remote tribal village in Madhya Pradesh, has found a low cost, environment friendly alternative to toxic pesticide for her crops. She is one of the 4000 farmers who are practicing No Pesticide Management (NPM) farming for a safe and sustainable environment.

<https://www.youtube.com/embed/dPcpzV5lieU?si=PHZ921-Z35iePVjO>

How to make: Azolla Mother Pit

<https://www.youtube.com/embed/eqs7PmAfjVk?si=QN1Zdk9p0LvEKMsO>

How to do NADEP composting

NADEP method of composting recycles agricultural crop residues to enhance soil fertility. In this aerobic method of composting, farmyard manure is mixed with agricultural crop residues and weeds, thereby enhancing the quantity of organic matter for soil application several times.
